# AMEER IBRAHIM

Full-Stack Developer

Portfolio: [www.ameeribrahim.com](http://www.ameeribrahim.com)

## EXPERIENCES

### Zinzo — Full Stack Developer

Nov 2023 – Present

- Contribute to the development of an E-commerce & Healthcare web platform from the ground up, focusing on fast performance.
- Design and optimize database schemas, develop backend REST APIs with Flask (Python), and implement frontend UIs with React.
- Work on Shopify-related applications and integrations.

### Freelancer — Full Stack Developer

Jun 2021 – Nov 2023

- Delivered custom websites for multiple clients.
- Designed and implemented UI/UX layouts, handling both frontend and backend development.

## PROJECTS

### Amrita Nutrition — E-commerce & Healthcare Platform

- Collaborated with a dedicated team to build an end-to-end e-commerce and healthcare platform from the ground up.
- The platform enabled practitioners to manage clients, provide personalized care, and sell products through integrated e-commerce features.
- Built using a tech stack including: React, TypeScript, Tailwind, i18next, Flask (Python), Typesense, Docker, Nginx, PostgreSQL, Redis.

### Amrita Nutrition Store — E-commerce & Healthcare Platform

- Developed a multi-store system where each practitioner could run their own branded storefront and sell D2C products to clients.
- Leveraged the same tech stack as Amrita Nutrition, focusing on optimizing database performance and reducing frontend complexity.

### Duhok Industry — Interactive Map

- Developed an interactive map-based website showcasing the industrial area of auto repair shops in Duhok.
- Built with React, TypeScript, Tailwind, i18next, and Leaflet.

## SKILLS

### Core Technologies

- JavaScript (ES6+)
- TypeScript
- React
- Python
- Flask
- Docker

### Additional Skills

- HTML
- CSS
- Bootstrap
- Tailwind
- Next.js
- Storybook
- I18next
- JWT
- Nginx
- PostgreSQL
- Redis
- Git/GitHub
- Shopify

### Familiar With

- Node.js
- Express.js
- MongoDB
- GraphQL
- OWASP Top 10

### Zinzo Website — Corporate Website

- Designed and developed the official corporate website to serve as the company's digital presence.
- Built with Next.js, TypeScript, CSS, Bootstrap and i18next.

### Personal Projects — Experimental and Side Projects

- Built and deployed independent web and mobile applications to explore new technologies and frameworks.
- Developed full-stack solutions with frontend interfaces, backend APIs, and database integrations.
- Experimented with performance optimizations, responsive design, and third-party API integrations
